# CHINESE SPEECH AND DRAMA

Every child is born with their unique inner strength to perceive their surroundings and happenings differently from each other. In order to convey their feelings, most children will use speaking as the most obvious manner to communicate with each other. In order to strengthen children's communicative skill, we have set up an interesting Chinese Speech and Drama holiday course, with the objective to assist children to develop this skill in a friendly and conducive environment. The course is

designed with the objectives to upgrade children's present ability in communicating in Chinese, with age appropriate and innovative approaches. Our instructor will be using music, drama, attractive pictures and cards, coupled with games which are created solely for Chinese speech and drama in this program. We hope our children will eventually learn to love the language and grow confidence in using and speaking the language happily and effortlessly.

Age : 2 – 3 years old

# DANCE

Age : 2 – 3 years old

Duration : 1 hour

Descriptions:

Physical movements play a very important part in the growth of a child. It is every parent's hope that their children develop holistically in mental and physical health. We should give our children enough time and space to explore their physical surroundings in order not to suppress their curiosity, adventurous, inquisitive and imitative nature. Seimpi Education has developed a dance program in our holiday courses to allow these tendencies in children to be fully explored. Children can take the course as physical play, in the midst of stretching and understanding how to develop their body own language for communication purposes. The dance steps are made up of a combination of classical, jazz and modern style. It is accompanied by captivating music, eye-catching props and some dramatic approaches to make the whole experience unforgettable.

# UKULELE

Age : 4 – 8 years old

Duration : 1.5 hour

Descriptions:

Explore the ukulele through our fun and unique holiday program. The instructor will guide you on choosing the right ukulele size and teach you about the brief history of the ukulele. The ukulele is a simple instrument that can help you learn music theory easily and help you understand how to interact and perform together with other musicians even if they play other instruments.

The program will take you through the typical strum and sing along while learning contemporary songs, chords and technique. It also covers some basic knowledge on rhythm, time signatures and the anatomy of the ukulele. Learn how to play different chord shapes and basic theory on changing keys of a song to suit your vocal range.
